

Dear colleague,

After the first circular sent to you, I did not receive any news from you. I would like to attract your attention on the following: we can accept from now only 36 participants more (as you know, we are limited by the size of rooms), and we shall be obliged to close registrations as soon as the maximum number of participants is reached, which could occur soon.

On the other hand, I feel that your presence in the meeting would be relevant, and I would like to invite you to present a talk or at least poster(s). If you intend to participate to the meeting, please let me know it as soon as possible and send me your abstract through the internet site, in order to allow us to organize the program in detail.

Here is the website address: <https://www.u-picardie.fr/ispds1/index.html>

Thank you in advance! Hope to see you in Amiens in December!

Best regards,

=====
