

PUBLICATIONS 2018 - INGÉNIERIE DES SURFACES

Héla Chamroukhi, Zied Ben Hamed, A Telfah, M Bassou, A Zeinert, R Hergenröder, H Bouchriha : *Optical and structural properties enhancement of hybrid nanocomposites thin films based on polyaniline doped with Zinc Oxide embedded in bimodal mesoporous silica ($ZnO@SiO_2$) nanoparticles*
Optical Materials 84, 703-713

O DepablosRivera, A Zeinert, SE Rodil : *Synthesis and Optical Properties of Different Bismuth Niobate Films Grown by Dual Magnetron CoSputtering*
Advanced Engineering Materials 20 (10), 1800269

LABORATOIRE DE PHYSIQUE DE LA MATIÈRE CONDENSÉE

LP Rivera, E Camps, S Muhl, R Basurto, A Zeinert: *Al-Si-N thin films deposited by laser ablation: Effect of plasma parameters on mechanical and optical properties*
Materials Research Bulletin 99, 306-313

A Lelong, A Sakli, A Zeinert, M Lejeune: *Carbon copper thin films for discoloration of indigo carmine*
Vacuum 148, 136-139

R. Amri, S. Sahel, D. Gamra, M. Lejeune, M. Clin, K. Zellama, H. Bouchriha: *Photonic band gap and defects modes in inorganic/organic photonic crystal based on Si and HMDSO layers deposited by sputtering and PECVD.*

Optical Materials 76, 222-230
